SEPTEMBER 25-27

29th INTERNACIONAL ACM CONFERENCE ON 3D WEB TECHNOLOGY

This year's conference will be hosted by the CCG/ZGDV Institute in Guimarães - Portugal, on the Azurém Campus of the University of Minho, a research institute with a focus on applied research, in the fields of information and communication technologies.

The purpose of the Conference is to study and share the principles of the latest advancements in interactive 3D technologies, including the Metaverse. The conference will bring together experts from around the world to discuss the latest research, development, and practices related to these technologies.

This year's conference theme is "The Metaverse Workplace" an integration of virtual reality, augmented reality, and other immersive technologies into the traditional workplace, creating a digital environment to collaborate, communicate, and work together. As these technologies continue to advance, providing new ways for people to connect and collaborate remotely becomes crucial.

29th INTERNACIONAL ACM CONFERENCE ON 3D WEB TECHNOLOGY

Web3D 2024
GUIMARÃES - PORTUGAL

What is the Web3D Conference?

RIt is a conference on 3D Web Technology addressing an extensive range of research, development, and practice related to web-based 3D graphic. Attendees share and explore methods of using, enhancing and creating new 3D web and multimedia technologies.

The conference also focuses on recent trends in interactive 3D graphics, information integration and usability in the wide range of Web3D applications from mobile devices to high-end immersive environments.

Sponsored by ACM SIGGRAPH, in cooperation with Web3D Consortium and supported by **Eurographics.**

https://web3d.siggraph.org/

Who Attends?

Leaders and experts from the 3D graphics industry including:

- Technologists
- 3D graphics experts
- Researchers
- Software developers
- Web developers
- User Interface experts
- Mobile app developers
- Designers
- Artists
- Hardware producers and others
